

FORMULA SHEET

We will specify the name of the headers u need to pick the data up from to avoid any confusion and what exact formulas mathematically to use over them.

FULL AND FINAL TAB FORMULAS

1. Employee Type widget - Emp Type (Column C)
2. HRBP Lead - HRBP lead (Column AP)
3. P&L Name - P&L/COE Name (Column I)
4. Month - Pick it up from DOL which stands for Date of Leaving (Column N)
5. Year - Pick it up from DOL which stands for Date of Leaving (Column N)
6. Gender - Gender (Column AR)
7. Total F&F cases - Count of Employee Name (Column E)
8. Average TAT - Take the average of F&F ageing column (Column AL)
9. Ageing buckets breakdown - The buckets (1-2 days, 2+ days) will be used on F&F ageing column (column AL) - We will create a double bar graph month wise which will have these 2 buckets. Mention the headcount for these and the percentages also, which need to add up. Make it for all months in that particular year chosen. And Put an year filter on this widget.
10. Payable vs Recovery Split - use F&F status (Payable/ Recovery) - Column AF
11. NDC clearance - use DOL (column N) and use HRBP NDC date for HRBP category of the bar chart (Column Q). Same for IT (Column R), Finance (Column S), Admin (Column T). Formula for this is, If these 2 dates match, they fall under the category of Ontime otherwise categorise them under Delay.
12. Total F&F payout by P&L - use the HRBP lead filter and take the column HRBP lead for that. (Column AP). Pick up the P&L name from P&L/COE Name (Column I). Take total Payout by checking if F&F status (Column AF) says Payable. If it is payable, go to column Final F&F recovery / payable amount (Column AE) and use that number in those fields.
13. Recovery & Settlement Analysis by P&L Home - Condition 1 : If Column AF (F&F status (Recovery/ Payable)) is Recovery then pick amount from Column AE (Final F&F recovery / payable amount). This is our unrecovered amount. The amount recovered is the difference between the column AE (Final F&F recovery / payable amount) and column AA (F&F amount (payable/recovery)). The accounts with a difference are what you count in the headcount.
- 14.
